SUMMARY

Passionate Software Engineer with **3 plus years** of experience in engineering user-centric and break through solutions in **Java** and **AEM**. Involved in full **software development life-cycle** from concept through delivery expert in translating business requirements into technical solutions; and fanatical about quality, usability, security and scalability. Expertise in **Object Oriented Programming** and **Test-Driven Development**. Recognized for Excellent troubleshooting skills, ability to analyze code and design cost-effective and responsive solutions.

WORK EXPERIENCE

- 3 plus years of experience in **Java, J2EE, AEM (CQ5), CRXDE Lite, OSGI Framework, JCR, DAM, migration of digital assets, Apache sling, Template & Component Development, workflow Management, Teasers, Campaigns, Administration and installation of Author & Publish instances, Packaging, User Administration.**
- Experience in developing Web Applications which have integrated several functional capabilities like Web Content Management (WCM), Digital Asset Management (**DAM**), Identity & Access Management, Social Media, Search, **SEO** etc.
- Created reusable AEM CMS components with an effort to give AEM CMS Authors the most intuitive look and feel.
- Efficient in Scripting and Front-end technologies like **HTML5, JSP, JSTL, Sightly(HTL), CSS3, JavaScript, jQuery, Bootstrap, Angular JS and React JS.**
- Used SaaS as CSS Pre-processor, Gulp and Grunt as front-end build tools.
- Expertise in design and development of applications using **J2EE Full Stack, Custom tags, Frameworks (Struts& Spring), JSTL, EJB, Hibernate, SOA, AJAX, and JSON.**
- Designed, Developed, Consumed and Exposed web services in **SOAP and RESTful using JAX-RS, JAX-WS, Spring REST.**
- Validated API calls and data using SOAP UI and Postman plugins.
- Separated content from presentation layer through Headless CMS in AEM, created an enterprise-class authored data in Multi region, multi-channel multi language website.
- Made Modular architecture and support for open standards to make it the ideal platform for agile development through AEM CMS.
- Experienced in using Accessibility features for Adobe LiveCycle forms.
- Proficient in using LiveCycle tools (Workbench, Forms Designer, Administrator Console and Workspace).
- Experience in rendering Forms in different formats (Form Guides, HTML Forms, and PDF Forms).
- Good at code reviews, integration of the system modules, writing test cases, bug fixing and enhancements, very conversant with quality management and system support.
- Experience with Multiple websites that share common content using MSM (Multi Site Manager) and implemented i18n internationalization in the websites
- Experienced in using CRXDE and Eclipse IDEs to develop CMS applications.
- Experience with Akana API management tool to handle API calls, data and security and API hosting.
- Extensively worked on Swagger and WSDL documents with the third party client applications.
- Experienced in working with Version Control Tools like SVN, GIT.
- Experienced with different built tools like ANT/Maven.
- Implemented Log4J for debugging and also on JSTL specification, Resource Properties, Tag Libraries.

Austin, TX +1 732-874-1508

- Experience in Banking, Financial, Healthcare domain.
- Automated functional and Regression test cases through Selenium Web driver.
- Strong experience with RDBMS Databases like Oracle, MySQL.

TECHNICAL SKILLS

Languages	Java, SQL, PL/SQL
J2EE Technologies	JDBC, JNDI, EJB, Servlets, JSP
Frameworks	Spring, Spring MVC, JUnit, Log4j
Scripting/Markup Languages	JavaScript, HTML5, AJAX, CSS3, JQuery, Angular JS, Grunt, Gulp
Web/App Servers	Apache Tomcat 3.0, Oracle WebLogic 7.0, IBM WebSphere 6.1, JBOSS
IDE's	Eclipse, CRXDE, IntelliJ J, NetBeans, Atom, Notepad ++
UML Tools	MS Visio
Databases	Oracle 9i/10g, MySQL
Configuration Mgmt. Tool	Git, SVN, Clear Case
Operating Systems	Windows, Linux

PROJECTS

Sapient Razorfish | Patron | Web Site

Jan 2018-Current

Java /J2EE AEM CMS Developer

Patrontequila.com is a primary website of Patron in multiple regions and languages across the world which is developed and maintained in AEM CMS tools which is written in Java. Patron comes with various programs and initiative yearlong like Margarita of the year, patron perfectionists, Summer cocktails, cocktail of the moment etc.

- Designed and Developed, CQ5 building blocks including templates, Components, Dialogs, Widgets, and Workflows and forms.
- Developed Resource Learning path in Learning Management System by editing environment, preview environment, tag generation environment, HTML, CSS, in combination with JavaScript and JQuery.
- Developed OSGI components and OSGI services.
- Created components using Sightly HTML.
- Extensively used HTML5, CSS3, Bootstrap, JQuery and JavaScript to build pages for Patron's monthly campaign.
- Developed dynamic-interactive Forms, Invoices, Correspondences etc using LiveCycle Form designer.
- Implemented mobile first approach to build pages in Bootstrap, CSS3, SaaS.
- Expert in configuring author and publish agents.
- Developing Pages/Templates/Components in Eclipse/CRXDE Lite.
- AEM design and framework development and Architecture using components widgets, CQ5 bundle, JCR/Sling API, clustering publish and author and editing content with the help of widgets
- Worked on Digital Asset Management, to manage and store all project specific Media (Images, Videos, and Campaign Assets)
- Involved in creating Cq: dialog & dialogs for both Touch UI/ Classic UI.

Anvesh Rasamalla

Austin, TX +1 732-874-1508

- Responsible for checking cross browser compatibility and hence worked on different browsers like Safari, Internet Explorer, Mozilla Firefox and Google chrome.
- Involved in writing application level code to interact with APIs and Servlets using AJAX and JSON.
- Performed Unit Testing on developed modules and involved in trouble shooting the components.
- Proficient in Adobe CQ foundational concepts, including the CRX repository, the CQ platform, the use of core frameworks such as Apache Sling and Apache Felix.
- Analyze functional and business requirements for optimum utilization of CQ5 components and performance.

Environment: AEM 6.1, 6.0, HTL/Sightly, WCM, Sightly, Java 1.8, J2EE, Servlets, Apache Maven, JavaScript, Apache Sling, CSS, HTML, jQuery, Servlets, REST frameworks, Jackrabbit, JCR Connector, GIT, Jenkins, Acrobat XDP model/ PDFA.

Mayo Clinic, Rochester, MN

Jun 2017 - Dec 2017

Java/J2EE AEM Developer

Project EPIC at Mayo Clinic is about bringing all the Mayo 120 internal applications to a single platform called “EPIC” where each individual team is creating web services to expose and consume data internally externally to Mayo Clinic.

- Designed and Developed AEM Forms for data collection from Patients and Doctors.
- Customized AEM forms with HTML5, CSS3, JavaScript and Bootstrap in order to achieve responsive and mobile first design.
- Involved in creating an end-to-end business process including the design and development of interactive Forms, data capture, Reader extending, emails, etc through Workflow and Orchestration.
- Customized AEM components and bundles in J2EE and Apache Sling.
- Developed REST API is using JAX-RS and Spring REST.
- Involved in requirements gathering and analysis from the existing system. Captured requirements using Use Cases and Sequence Diagrams
- Used **Eclipse IDE** for development, **JIRA** for defect tracking.
- Actively participated in the daily **SCRUM** meetings to produce quality deliverables within time.
- Used for **Maven** entire build process.
- Automated regression and functional test cases in **selenium webdriver**.
- Used **GIT HUB** for version controlling.
- Involved in resolving Integration Test, UAT and Production Issues of webpages built in AEM.

Environment: AEM, J2EE, JAVA, Servlets, JSP, JSTL, JNDI, JavaScript, HTML, jQuery, Ajax, XML, Windows 7, GIT, Maven.

Nucleus Software Exports Ltd | FinnOne |

Sep 2013-Dec 2015

Java/J2EE AEM Developer

FinnOne is **World's no.1 lending product** for banks and financial institutions, which is a full loan life cycle management system, starting from loan origination to loan closure, developed in Java. I was involved in more than 15 enhancements and 3 implementation projects in span of 2.5 years which was in agile methodology implementation.

- Understanding the business requirements and converting them to system specific AEM technical requirements.
- Developed Templates, components using JSP and Sightly.
- Installation and Configuration of Author and Publish environments, replication agents, cache rewrite rules for routing the calls to AEM.
- Setup and configure CQ5 dispatcher to cache the landing pages' html and serve as the static pages from Apache.
- Generating projects using Maven builds.
- Used OSGi Bundle Status Maven Plugin during the install phase of the build lifecycle to check the status of one or more bundles in an OSGi container, such as Apache Felix.
- Created an XHTML / CSS based icon, clip art, and graphical standards online repository.
- Worked on CQ5 Forms customization by developing the custom form fields, writing the custom constraints for form fields and specifying the global validation resource type at the form level.
- Performed administration tasks to activate, replicate and package the changes to publish as well to be consumed by other environments.
- Involved in writing application level code to interact with APIs, Restful Web Services using Ajax, JSON.
- Assisted in functioning of CQ5 solutions by documentation and validation procedures of non-functional requirements.
- Provide estimates, designs, and specifications for CQ5 templates, Dialogues, Components, Servlets and Workflows.
- Analyzed and resolved technical issues relating to content management.
- Creating and maintain customer-facing Adobe CQ5 content management systems.
- OSGi has been used to deploy dynamic libraries.
- Design, develop and support WCM components, integrations and applications.
- Implemented Sling servlets to provide Ajax handling.
- Content authoring and maintenance for test environments.
- Used CRXDE, Eclipse extensively to perform development.
- Extensively involved in troubleshooting AEM related issues.

Environment: AEM WCM, CQ5, Ajax, Sightly, OSGi, Apache Felix, JSON, APIs, Workflows, CQ5 Forms, Apache Sling, CSS, CRXDE, XHTML, JSP, Servlets, JS, jQuery, Apache Maven, JIRA, REST Web Services.

EDUCATION

CENTRAL MICHIGAN UNIVERSITY, Mt Pleasant

Jan 2016-May 2017

Master of Science in Information Systems, GPA 3.66/4.00

Major: Information Systems

Anvesh Rasamalla

<https://anveshr.com> | anveshrasamalla@live.com | <https://www.linkedin.com/in/anveshrasamalla/>

Austin, TX +1 732-874-1508

*Courses Taken: **Lean Six Sigma (Green Belt Certification)**, Application Development, Web site development, Business Analytics, System Analysis and design, Data Base Management System, Business Intelligence using SAP, research in Information Systems.*

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY, Hyderabad

Sep 2009-May 2013

Bachelor of Technology, Computer Science Engineering, GPA 67/100

Courses Taken: Algorithms, Java OOP Programming, System Analysis, Design patterns, Networking, Databases.
